

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTORY.

IN introducing a volume like this Index, one needs to speak of the documents indexed and the purpose to be accomplished by indexing them.

I. From the formation of the General Assembly, in 1788, there were published annually, in pamphlet form, "Extracts from the Minutes." The extracts were not very full. Only once in three or four years did they contain complete lists of the ministers of the Church.

Brief as these early "extract" minutes were, they became, as the years went by, very scarce and difficult to obtain. In view of this, the Presbyterian Board of Publication issued successively the volumes which are set down in their *Descriptive Catalogue* as No. 219 and No. 393. No. 219 is entitled *Minutes of the General Assembly from 1789 to 1820*. The full title of No. 393, with the note appended, in the *Descriptive Catalogue*, is as follows:

"Minutes of the General Assembly of the Presbyterian Church in the United States from A. D. 1821 to A. D. 1835, inclusive. Prepared by the Editor of the Board."

"The original edition of these Minutes having been exhausted, and no second edition published, they have for many years been quite inaccessible to the great body of ministers and people. Hence the call for this new edition, which contains the Minutes in full, with a condensed summary of the voluminous statistical tables of the original Minutes. This volume will be valuable as a work of reference, and as exhibiting a consecutive history of the proceedings of our highest judicatory."

These volumes—and especially the first of them—are not merely the reprinting of the extracts which had previously been published, but include much additional matter, and, in particular, many reports made by Presbyteries to the Assembly, including lists of the names of the ministers who then composed those Presbyteries.

These two volumes of republished Minutes, with the sets of Minutes published annually, contain the complete public record of the Presbyterian Church from 1789. To cover the record previous to that time, the Board have published their volume No. 73, which is thus described in their catalogue:

2

"Records of the Presbyterian Church in the United States of America. Embracing the Minutes of the Presbytery of Philadelphia from A. D. 1706 to 1716; Minutes of the Synod of Philadelphia from A. D. 1717 to 1758; Minutes of the Synod of New York from A. D. 1745 to 1758; Minutes of the Synod of New York and Philadelphia from A. D. 1758 to 1788. Prepared by the Rev. Wm. M. Engles, D. D."

THE PRESENT INDEX contains, in a single alphabet—

1. All names of ministers found in the "Records" from 1706 to the organization of the General Assembly.

2. The names found in the lists of ministers under the care of the General Assembly given in the Minutes of the Assembly as originally published, from 1789 to 1881.

3. Those found in the lists of Home Missionary appointments, as published in the Minutes, to 1837.

4. Those found in the reports of membership made to the General Assembly by the Presbyteries, from 1789 to the time when the lists of ministers began to be published annually, as contained in the two volumes of *Minutes of the General Assembly*, Nos. 219 and 393 of the publications of the Board. The references to these volumes are *distinguished by being italicized*.

5. Those found in the necrological lists and reports from 1789 to the year 1851 in the "New School" branch of the Church, and from 1854 in the "Old School" branch, the annual Minutes of the General Assembly had no alphabetical indexes. For the years *since* the present index is taken from the alphabetical indexes to the Minutes. *For the previous years, it is made from the body of the Minutes.*

The reference, in each case, is to the year and page of the Minutes. For the few persons who have the Minutes at their command, references to the volume and page would have been unnecessary. But it would have been impossible to make a volume of references, because of the nature of the materials. Moreover, in its present form, contains a vast amount of information which could not be contained in a mere reference to volume and page.

II. The utility of such a work as this Index may be seen from a brief sketch of the circumstances which led to its preparation.

For ten years past it has been the duty of the author to prepare annually an obituary paper in remembrance of the alumni of the Auburn Theological Seminary as they die. More recently he has been called upon to prepare a Catalogue of the Seminary. In that work he was obliged to consult the Minutes of the General Assembly for the history of men who were there mentioned. As many of these Minutes had no alphabetical indexes, it was an exceedingly laborious task to go through them or to use the Minutes with any thoroughness.

to him that merely for his own use it would be a saving of labor to have an index of those numbers of the Minutes prepared, under a single alphabet. He therefore entered upon the preparation of such an Index, with the assistance of his sister, upon whom the labor principally devolved.

It then occurred to him that there were many others to whom such a work would be of value if it were published, and he opened correspondence on the subject with the Board of Publication, and also with the Stated Clerk of the General Assembly. The matter was brought before the General Assembly of 1880. It was referred to the Committee on Publications (see Minutes, p. 19), and the recommendation made in regard to it by that committee in their report was adopted :

“ A communication, addressed to the Stated Clerk of the General Assembly by Professor Willis J. Beecher, of Auburn Theological Seminary, was laid before your Committee. In the communication the writer says : ‘ You are aware that no alphabetical index to the list of ministers given in our Assembly Minutes was published previous to the New School Minutes of 1851, and the Old School Minutes of 1854. For my own use, in making a fresh Historical Catalogue of Auburn, I have had an alphabetical list made of all the names, in the Presbyterial lists and in the necrological lists of all Minutes, previous to those dates, with the year and the page where each name occurs. It seems to me that the General Assembly, or its Publication Board, ought to print just such a list as mine. All persons who have statistics to make out would be glad to get it. For lack of it, the information contained in the early Minutes of the Assembly as to the history of our ministers is unavailable. Now, if any responsible parties care to publish my Index, I will have it completed and revised, and will furnish a copy for the printer, for a sum that shall be fairly equivalent to what it costs me in cash, charging nothing for my own time and trouble in the matter.’ Your Committee recommend that the subject be referred to the Board, with the direction to print the list as suggested, if on full investigation it be deemed advisable.”

Further correspondence with the Board of Publication resulted in the undertaking of the present work, so *immensely more extensive* than that originally proposed. The utility of such an Index to the comparatively few persons who have sets of the Minutes at hand, and have occasion to consult them, is obvious. But it can be utilized by others than these. In looking up the history of a man it will often be sufficient for the purpose in hand to ascertain whether his name was in the published lists of the Presbyterian Church ; and if it was, then in what years. To these questions the present volume affords a complete answer.

If one has occasion to go where sets of Minutes are, in order to consult them in regard to men concerning whom he needs information, or to consult such sets by correspondence, the present volume will enable him to do the preliminary work beforehand.

The spelling of the names in the Index is, of course, that of the Minutes from which they are taken. Instances in which a name is differently spelled in different places, or is misspelled, are sometimes briefly indicated.

No work of this kind is altogether free from errors. From considerable use of a portion of this Index in manuscript, I am confident that the percentage of mistakes in it is much smaller than in most similar works. The few errors I have found have nearly all proved to be in the original making up of the lists or indexes, and not in the work of the present compilers.

Let us hope that this volume will prove to be a contribution of some value toward preserving the history of that noble succession of men, the ministry of the Presbyterian Church.

WILLIS J. BEECHER.

INDEX OF PRESBYTERIAN MINISTERS.

NOTICE that the * indicates that in that place the person is reported as deceased. The italicized references are to the pages of the two volumes of republished Minutes of the General Assembly. All others are to the lists as originally published in the body of the Minutes up to 1851 and 1854, and after that in the Index to the Minutes of each year. For further information examine the Preface.
